PRESS RELEASE FROM THE PREMIER, MR DUNSTAN.

E. & W.S. KENT TOWN.

2.4.74

The Engineering and Water Supply Department depot and workshops at Kent Town are to be progressively phased out and the area will revert to parkland, the Premier (Mr Dunstan) announced today. Mr Dunstan said it was expected that this would take six years to complete.

"The decision is in line with the State Government's policy to remove Government instrumentalities from the parklands wherever possible to allow maximum open space", he said.

"The move will provide a valuable addition to Adelaide's unique parkland setting", the Premier added.

The site covers about 3½ acres.

The Kent Town workshops would be replaced by a single major workshop to be developed at Ottoway.

A program of development had been prepared for the expansion of Ottoway and had a high priority. Design work was expected to start shortly.

The new facilities were expected to cost about \$3.25M.

The transfer of employees at Kent Town would be progressive over the six year period depending on progress in construction of the new facilities.
